AW SCHOOL of COLUMBIA COLLEGE, NEW-YORK.—The second term of this Institution will commence on the third day of October, 139, at the Law-School Building No. 37 Lafayette-place, opp-site to the Astor Library, New York, and will continue until May 15, 1959.

The course of study occupies two years, and is so arranged that a complete view is given during each year of the subjects embraced within it. The plan of instruction includes the various branches of Common Law, Equity, Admirally and Commercial Law, and especial attention will be given to all the topics embraced within the recent rule of the Supreme Court prescribing the studies requisite for admiration to the bar. It will be the aim of the School to make its students systematic and thorough in their attainments. It proceeds upon the principle that the science of Jurisprudence is to be inculcated by the approved modes of teaching the fendamental principles of other sciences, by the use of text books and by the drill of the recitation room, with applementary jectures and experisions, or and written.

The text-books used will be aumonoced to the classes as they are needed.

The first year of the course will be occupied with the study of commentaries upon Municipal Law, of the law of Contracts and of Real Estate. The second year includes Equity Juriarudence, Commercial and Admiratry Law. Evidence, Pleading and Practice. Particular attention will be given to the law of coal Estate.

Real Estate.

The regular and systematic instruction of the students upon the various topics of legal science is under the control of Prof. THEODORE W. DWIGHT. Courses of lectures will also be

It is built upon an fron frame or bed-piate, entirely separate from the case, thus relieving the sound boards and every other part of the instrument from the strain.

It will remain IN TUNE for MANY MONTHS, and, when the strings are seuled, even for years.

It has convex sounding locards above and below, the the Violia, which are connected together in the same manner, thus making the entire instruments a wirstory shell.

It has greater dupth and fullness of tone, and its "Sostemute," as power of suntaining the tone, has never been equaled, except by instruments of the violin class.

It IMPROVES WITH AGE and USE, becoming more vibratory and the tone purer and more sonogous.
